

Sheet 1

Product Cat..

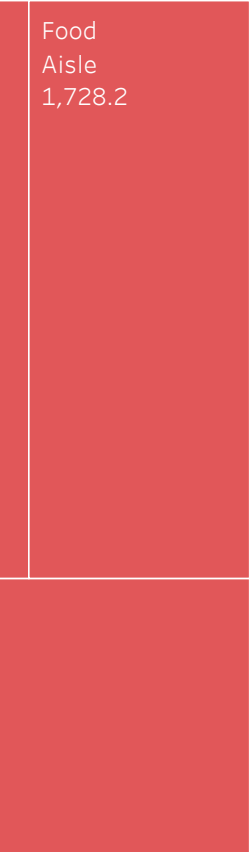

Average of Sales Volume for each Product Category. Colour shows details about Product Category. The data is filtered on Product Position and Consumer Demographics. The Product Position filter keeps no members. The Consumer Demographics filter keeps no members. The view is filtered on Product Category, which keeps Clothing, Electronics and Food.

Sheet 2

Product Category, Product Position and average of Sales Volume. Colour shows details about Product Category. Size shows average of Sales Volume. The marks are labelled by Product Category, Product Position and average of Sales Volume. Details are shown for Product Category. The data is filtered on Consumer Demographics, which keeps no members. The view is filtered on Product Category and Product Position. The Product Category filter keeps Clothing, Electronics and Food. The Product Position filter keeps Aisle, End-cap and Front of Store.

Sheet 2

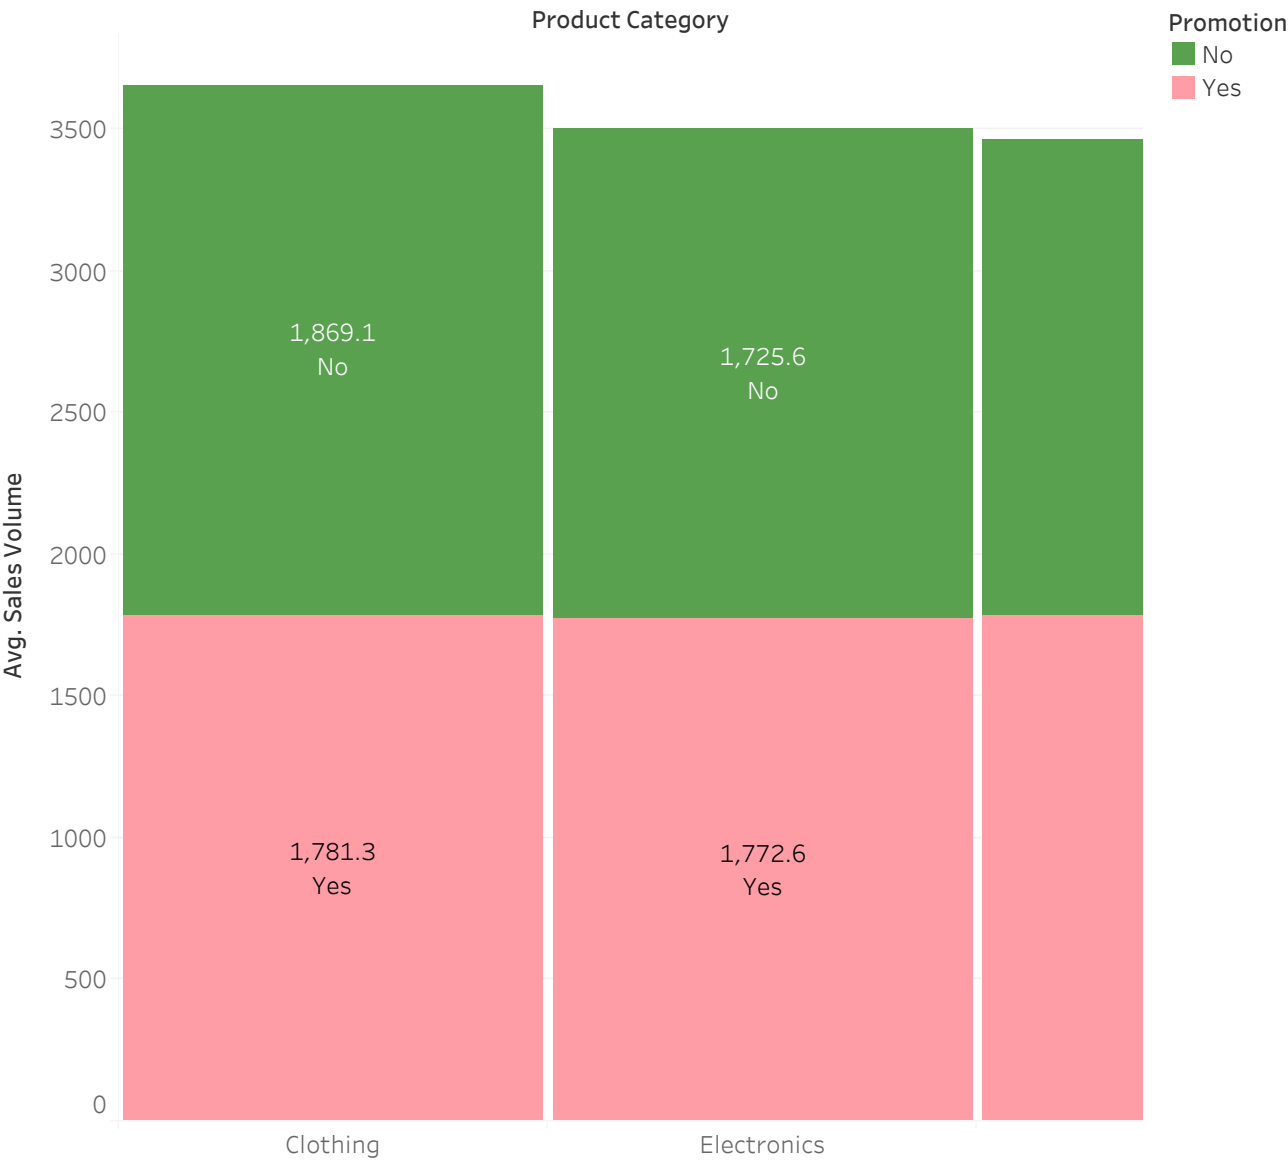

Product Category

- Clothing
- Electronics
- Food

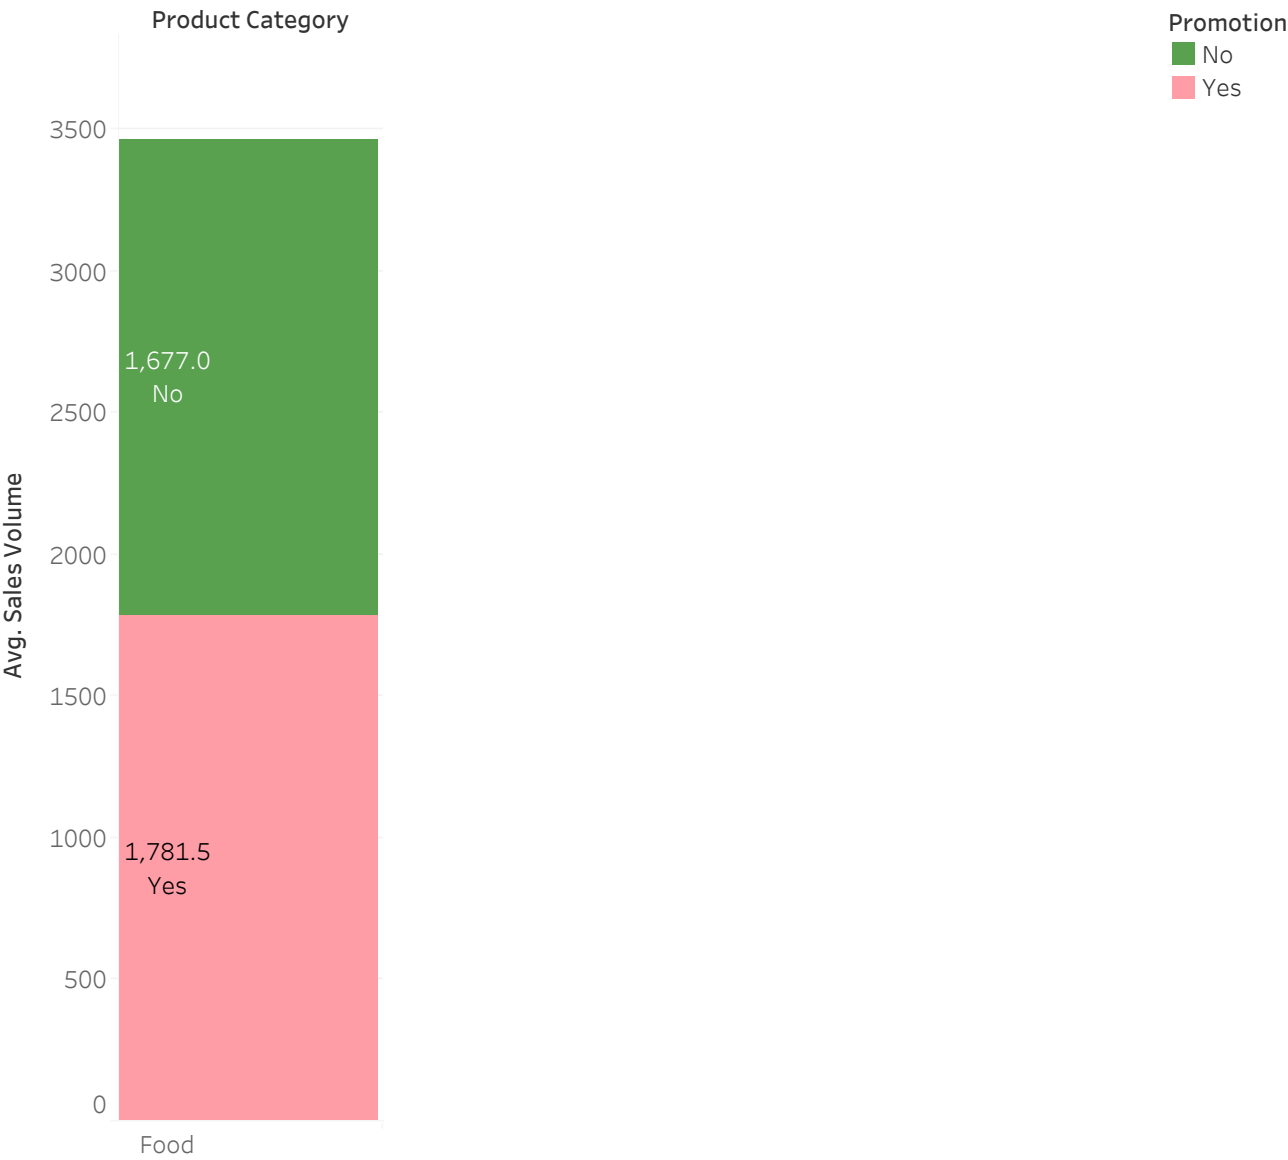

Product Category, Product Position and average of Sales Volume. Colour shows details about Product Category. Size shows average of Sales Volume. The marks are labelled by Product Category, Product Position and average of Sales Volume. Details are shown for Product Category. The data is filtered on Consumer Demographics, which keeps no members. The view is filtered on Product Category and Product Position. The Product Category filter keeps Clothing, Electronics and Food. The Product Position filter keeps Aisle, End-cap and Front of Store.

Sheet 3

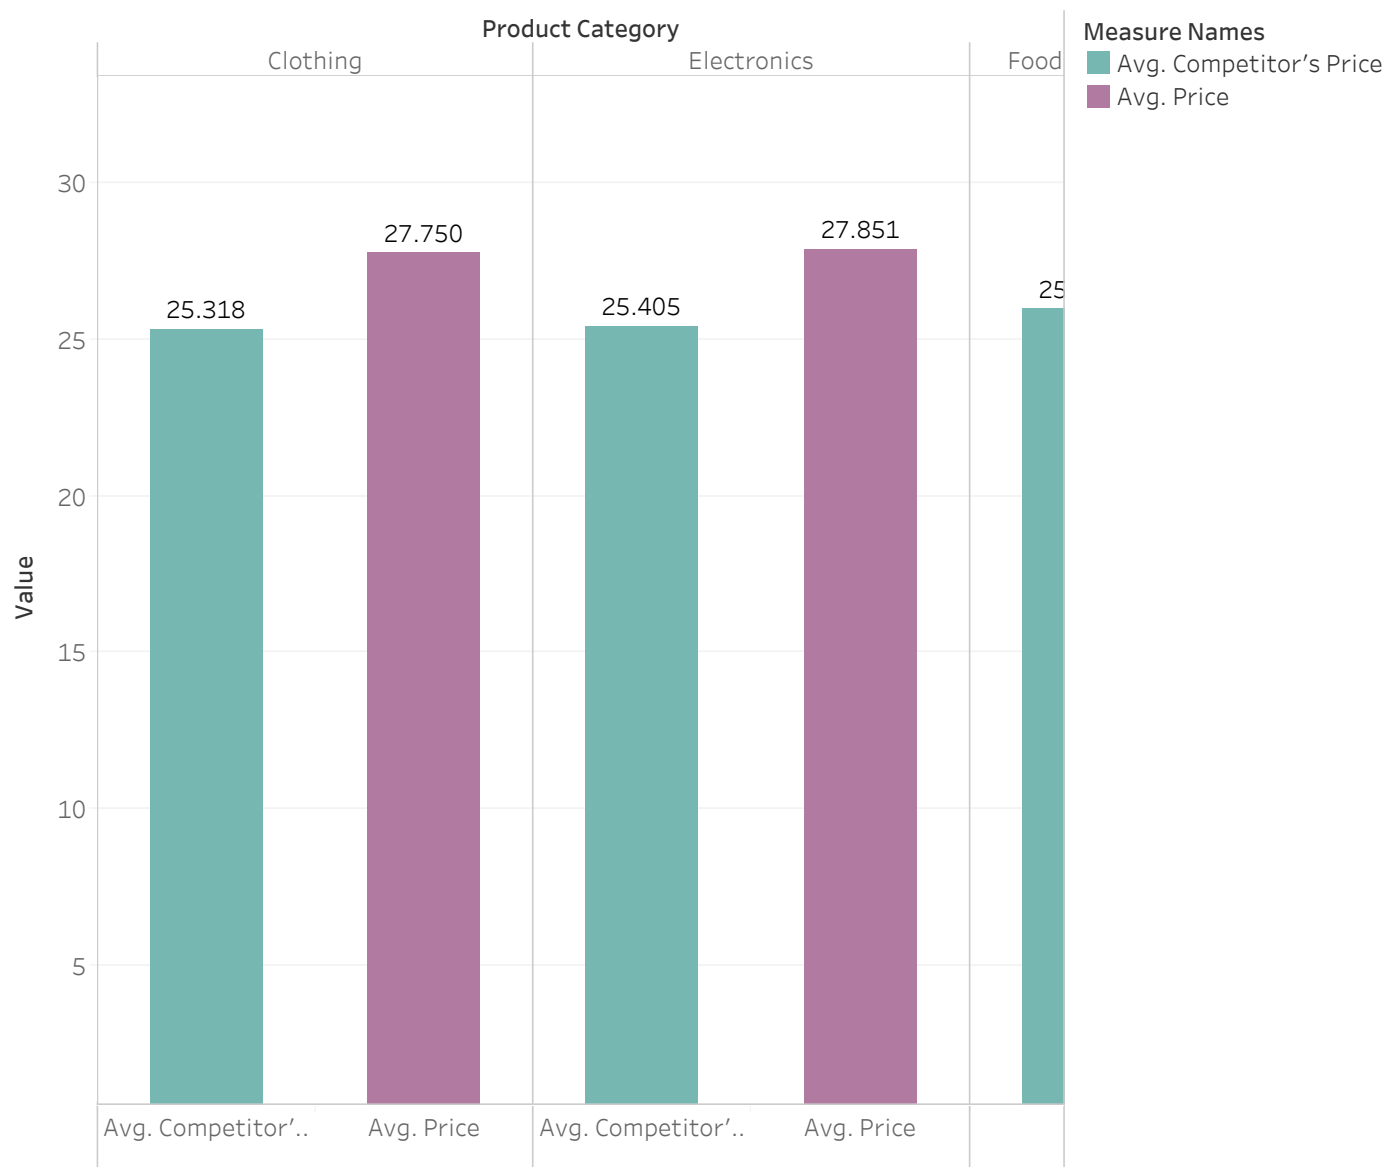

Average of Sales Volume for each Product Category. Colour shows details about Promotion. The marks are labelled by average of Sales Volume and Promotion. The data is filtered on Product Position and Consumer Demographics. The Product Position filter keeps Aisle, End-cap and Front of Store. The Consumer Demographics filter keeps no members. The view is filtered on Product Category, which keeps Clothing, Electronics and Food.

Sheet 3

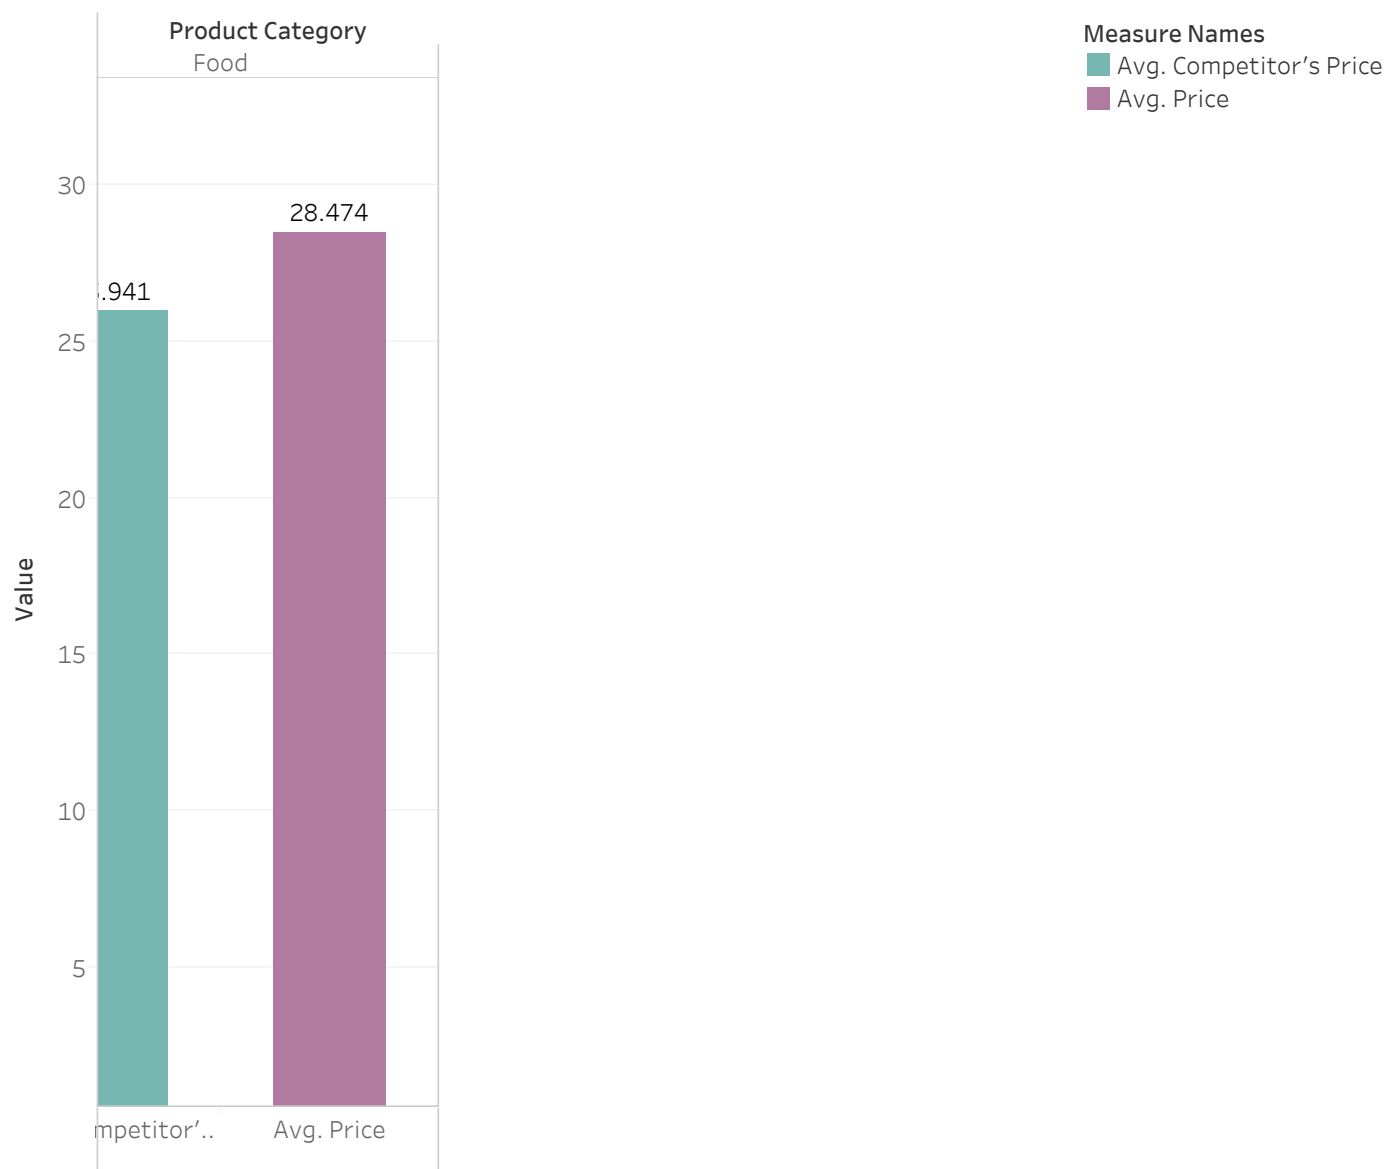

Average of Sales Volume for each Product Category. Colour shows details about Promotion. The marks are labelled by average of Sales Volume and Promotion. The data is filtered on Product Position and Consumer Demographics. The Product Position filter keeps Aisle, End-cap and Front of Store. The Consumer Demographics filter keeps no members. The view is filtered on Product Category, which keeps Clothing, Electronics and Food.

Sheet 4

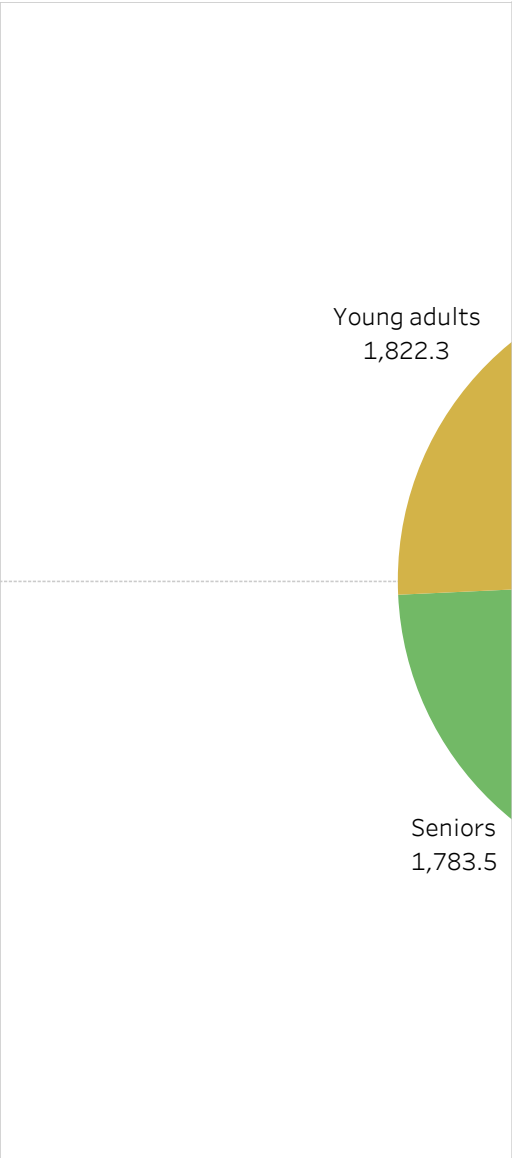

Avg. Competitor's Price and Avg. Price for each Product Category. Colour shows details about Avg. Competitor's Price and Avg. Price. The marks are labelled by Avg. Competitor's Price and Avg. Price. The data is filtered on Product Position and Consumer Demographics. The Product Position filter keeps Aisle, End-cap and Front of Store. The Consumer Demographics filter keeps no members. The view is filtered on Product Category, which keeps Clothing, Electronics and Food.

Sheet 4

Avg. Competitor's Price and Avg. Price for each Product Category. Colour shows details about Avg. Competitor's Price and Avg. Price. The marks are labelled by Avg. Competitor's Price and Avg. Price. The data is filtered on Product Position and Consumer Demographics. The Product Position filter keeps Aisle, End-cap and Front of Store. The Consumer Demographics filter keeps no members. The view is filtered on Product Category, which keeps Clothing, Electronics and Food.
